Jim McNamara offered my man \$30,000 to let him go, and he told my man 'You let me get away and you'll get \$30,000, for the American Federation of Labor is back of us.' I don't have to have men shadow Gompers. His footsteps are so deep that he can be traced any time."

"Gompers went around yelling that kidnapping by Burns must cease, but there was never a word from him that murders and dynamiting must cease."

"Our proceedings were perfectly lawful and I would do exactly the same thing again under similar circumstances."—From statement by William J. Burns.

The controversy over the refusal of the Harvard corporation to allow Mrs. Emmeline Pankhurst the use of Sanders Hall for a suffragist address still smolders in Cambridge.

Mr. Olcott then read a letter to the Harvard Alumni Bulletin just out.

Frederick Lowell's action in refusing to use one of Harvard's public buildings as an address by Mrs. Penhance. It seems to have been a very proper and entirely judicious," says the "Old Grad."

"While there might be no objection to granting the use of a hall for a single affair, it is not proper to make it a permanent Christian Science," Mrs. Penhance is "a different sort of people, who believed in such things as the Incarnation."

"Frederick," Mrs. Penhance's object is in coming to this country is obscure. We know by common report that the couple are here to make a tour of the country susceptible of amelioration, but for all that the country look around among the laity of this denomination and see how we are

GIRES AT WELLESLEY HEAR MRS. PANKHURST

Several hundred Wellesley College girls listened to a speech on equal suffrage by Mrs. Emmeline Pankhurst in the Town Hall at Wellesley under the auspices of the Wellesley Equal Suffrage Association. Previous to the meeting Mrs. Pankhurst was the guest of Mrs. Walter Chaunting, who presided at the meeting in the absence of Mrs. Pankhurst's daughter. Mrs. Pankhurst answered questions regarding the suffrage movement.

HAVEY SELECTED FOR MAINE BIRTHDAY

AUGUSTA, Me., Dec. 7.—Governor Phillips has nominated Andrew P. Havey of Sullivan to be State insurance commissioner, succeeding Beecher Putnam of Houlton, whose term will expire December 1, 1907. Havey was member of the House of Representatives in 1902 and 1903, and April 1, 1904, he was appointed by Governor Fernald as a member of the State Board of Education.

They were assured that Boston, with the possible exception of Dublin and Atlanta, of course, is the finest city in the world. The girls said they would have better chance to judge of that after they got ashore.

The girls have been on the professional stage only two months. Miss Agnew, who is in charge of them, is in much request across the water as a singer of Irish folk songs.

Mr. Hiley came out recently as a candidate for next Tuesday's election. A week ago he withdrew from the race, called upon all his friends to support the candidacy of McSweeney.

Then ex-Mayor Arthur Howard declared himself "in" on the situation by putting in his paper a brief but pungent note to the effect that Mr. McSweeney had given Mr. Hurley the following paragraph in writing:

Taft's Chances Are Dwindling

By JAMES J. MONTAGUE.

WASHINGTON, Dec. 7.—A careful study of Senate Republican and Democratic positions completed today, discloses that Mr. Taft's chances regarding his re-nomination for four years warranted by the facts.

If the sentiment of the party is reflected by that of its representatives in Washington, it is plain Mr. Taft's chances are dwindling with every day of the session.

Members and members, asked directly what they thought about Taft, others about his friends or enemies their fingers. For obvious reasons, many of the regulars would be quoted. The inquiry made by the New York American developed an enthusiastic resoundable indifference and a great deal of certain hostility.

Still Without a Manager. It apparently never has occurred to Mr. Taft's friends that he will have the slightest difficulty in being re-nominated. This indifference is one of the things that most irritates Republicans who feel the

One Application And The Hairs Are Gone

(Ladies Beware!) Women troubled with fuzzy growth will be delighted to learn that a simple application of common powdered dandruff and water will remove every trace of hair without pain or injury. If the growth is very thick or stubborn, a second application may be required. The dandruff paste is spread thickly on the hairy surface, and after two or three minutes rubbed off, then the skin washed and dried. Druggists charge a dollar for original ounce packages of dandruff, but to those suffering with persistent growth it is worth several times this sum to know of a reliable and quick way in which to permanently rid the skin of hair or fuzz without having to endure pain.

men of the party are greater than those of any individual. The strange circumstance entirely made to the fact that as many industrial centers as possible, and avoid their death as Taft has been and not been. Mr. Taft has not yet selected a campaign manager. (Continued from page 10) Mr. Taft, who did the job for him four years ago, has given thus far no indication of his intention to get into the game again.

William Taft, Jr., of New York, has been appointed by the President that the "President's son" is a man whose name was greater than he could be underlain.

And while the White House pursues its waiting policy, its enemies are active and gaining recruits every day.

Powerful Senators, the Bureau of the Lodge of Massachusetts and the row of Progressives, are not, at all times, a second term for the President.

They will not make any fight against him, but if any skeptical Bostonian, who is a member of the political Bostonian, will get out his telescope and look the new possibilities over.

Ohio May Not Be Solid. It is not at all improbable that Mr. Taft will fail to get a full delegation from his own State to the convention. An Ohio Congressman—out from Mr. Taft's own district—said recently:

"I have been in the habit of supplying the country with President Taft's hair cream. It is very good. I have been in the habit of supplying the country with President Taft's hair cream. It is very good. I have been in the habit of supplying the country with President Taft's hair cream. It is very good."

The Governor has little right to claim for the President, as was shown by his fatal paper of him when he found the country.

In Indiana, Beveridge is getting up an active fight against the regular organization, and possibly will succeed at least in splitting the delegation.

The powers within the party in Illinois are not for Taft, and it is reported that an influential Republican newspaper in Chicago, on whose support the President depends, has been ordered to publish a notice that the President's candidacy.

In Minnesota, it is "understood there is far more likelihood of a delegation for La Follette than for Taft."

Fearful of Roosevelt. The President's friends are still considering ways and means to get rid of Barnes as chairman of the New York City Committee in the hope that they will have a better chance of getting Roosevelt elected.

Warren, the former President's close friend, has been ordered to leave the country. The Republican National Committee will meet December 12, and it will be possible then to make a full and complete statement of the party.

Although history has been learned, however, it is a larger right in his hands than that of any other man in the country, and it will take all the resources at his disposal to counteract the effect of the quiet growth of sentiment against him.

DR. HENSON IS EIGHTY TO-DAY

"I can hardly believe I am eighty years old today. But the secret is in the old family life. In order to forget my age I have to think of the things I have done as though I were eighty, and I don't intend to let my age from the house."

The Rev. Dr. R. C. Henson, formerly pastor of Mount Zion Church, is a native of Kentucky, and has lived in this city for many years. He is a vigorous and active man, and is well known in the city.

"I am eighty years old to-day but I don't feel a day older. In fact, I feel as though I were fifty. I don't think I have aged a day since I was born. I don't think I have aged a day since I was born. I don't think I have aged a day since I was born."

"I have just finished one of my best characters. The book deals in part with the life of a man who has lived a life of virtue. I have just finished one of my best characters. Women's Beauty in Wintry Weather

(By Dr. W. B. Smith) Every woman's complexion needs protection against wind and weather. Better than powder is a simple solution by dissolving an original package of mayonaise in eight ounces of witch hazel. Gently rub on face, neck and arms night and morning and you will be delighted with results. It restores and preserves youthful complexion of the skin.

Another valuable is the world's greatest remedy for chaps, cold sores, pimples, eczema and other skin diseases. It heals cuts, burns and scalds and is also an excellent cure for coughs, colds and croup.

"Don't wash the head in cold water. A dry shampoo is better and there is no danger of catching cold. Just mix four ounces of thorough brush with four ounces of powdered cornstarch, or with four ounces of cornmeal, and apply to the hair. Brush it out, and the hair will be clean, light, wavy and lustrous."

When we think of diamonds, we think of the brilliant, sparkling stones that adorn the fingers of the bride and the groom. But did you know that diamonds are also the hardest of all natural materials? That's right, diamonds are the hardest of all natural materials, and that's why they're so popular for jewelry. They're also the most popular gemstones in the world, and for good reason. They're beautiful, they're durable, and they're a symbol of love and commitment. So if you're looking for a diamond ring, you're looking for a ring that will last a lifetime. And that's exactly what you'll get with a 2 Diamond ring. It's a ring that's as strong as the love it represents. So go ahead, get a 2 Diamond ring, and you'll have a ring that's as beautiful as the love it represents.
